Visitation to Uganda's Zoo, the Uganda Wildlife Education Centre (UWEC) increases in 2016

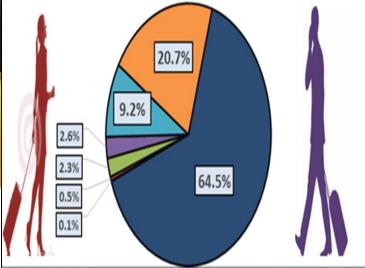

Performance of the Uganda Wildlife Education Centre

According to UWEC, visitation to the centre grew by 1.1% in 2016 to reach 307.241. This increase was largely attributed to the strong outreach conservation Education Programme that makes the centre pivotal in supporting wildlife conservation in the wild. The category of Students contributed most this performance having grown from 162,803 in 2012 to 198.210 visitors 2016.

VISITORS TO UGANDA WILD-LIFE EDUCATION CENTRE

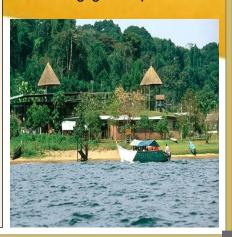

UWEC is not a zoo in a conventional sense and neither is it a Safari Park but it is a center where wildlife education is combined with leisure.

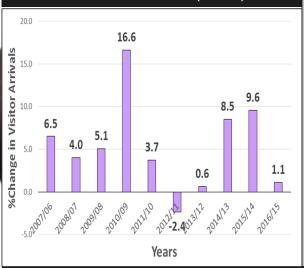

NGAMBA ISLAND

Ngamba Island, a peaceful home for Chimps

Surrounded by the peaceful Lake waters of ria, Ngamba Island Chimpanzee Sanctuary is home to 49 orphaned chimps rescued from throughout Uganda. Island facilities offer day trips and overnight trips which provide exceptional opportunity to closely observe and interact with these fascinating great apes in this

Percentage Change in Visitation to the Uganda Wildlife Education Centre (UWEC)

Over the last decade, UWEC has continuously recorded increases in visitation to the Centre With the highest increase of 16.6 percent having been recorded in 2010 followed by 9.6 percent increase in 2015.

Despite witnessing increases over the years, 2012 saw the visitation decline by 2.4 percent.

Behind the Scene Experience

The popular Behind the Scenes tour means a visitor can watch or participate in the day-to-day activities of ensuring the welfare and good husbandry of animals in the zoo such as feeding and walking them. They include the Cheetah run, shoe bill greeting, Rhino Touch, Keeper for a day, Girraffe feeding and many more

Seasonality of Visitation at Uganda Wildlife Authority

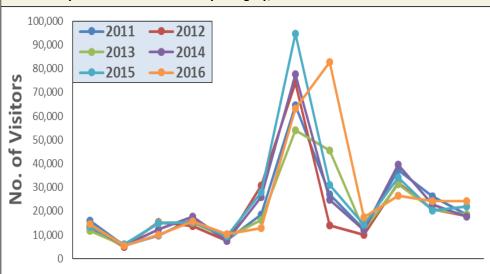

The Uganda Wildlife Education Centre commonly known as the Zoo is visited through out the year.

The peak seasons for the Centre are in the Months of July, August and September, October, November, April and December.

April and December receive high numbers dues to festive seasons and Easter Holidays.

However, also low numbers are received in January, February, March and September.

School Programs

Party Venue

These include School Visits, Guided trips, Hands on Experience, self guided tours, Workshops and internships

The beauty about accommodation at the centre is that, one gets an opportunity to visit the animal and recreation park; listen to the occasional lion's roar, the owl's hoot or the gentle whisper of the wind through the trees, at no additional cost!

The Centre is endowed with a beach and gardens which offer space for boat cruise, parties and weddings

MTWA PLANNING UNIT's Ngamba Island Experience

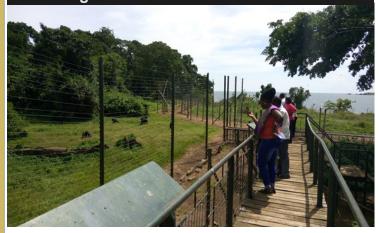

Ngamba island is a rescue and rehabilitation Centre for Chimpanzees. The Centre started with 19 chimps and has seen the numbers rising up to 49 chimps to-date. The proportion of the chimps at the centre is well balanced with 20 male and 29 female.

The Chimps are in in custody of Veterinary doctors who take care of their heath and provide clinic services.

The Planning Division onboard to Ngamba Island

Watching Stand

The Chimps can only be viewed once they have come for feeding. These chimps are fed three times a day on a balanced diet.

After a long day, the chimps spnd their nights in structures that are raised above.

The Team on arrival at the island

Its about 45 minutes boat ride from Waterfront beach to reach the Ngamba island which is the peaceful home for the Chimpanzees. The Centre Provides Boats that ferry visitors to the island.

Once you reach the island, one cannot afford to miss taking a photograph for memories near this signpost that welcomes you immediately you arrive from that boat cruise.

These Chimps like Humans also have leaders in their communities. The leader amongst the Chimps is always called the **Alpha** and is always the strongest male in the community.
